## About the book:

Forbidden to leave her island, Isabella dreams of the faraway lands her cartographer father once mapped. When her friend disappears, she volunteers to guide the search. The world beyond the walls is a monster-filled wasteland - and beneath the dry rivers and smoking mountains, a fire demon is stirring from its sleep. Soon, following her map, her heart and an ancient myth, Isabella discovers the true end of her journey: to save the island itself.

## Our thoughts:

I think that this book is really interesting and keeps the reader glued to the book. No matter how hard you try to tell yourself that you need to stop reading and get other things done, you will end up sitting and reading another chapter or two. **ABSOLUTELY** one of my favorite books!

## About the book:

The VirtNet offers total mind and body immersion, and the more hacking skills you have, the more fun it is. Why bother following the rules when it's so easy to break them? But some rules were made for a reason. Some technology is too dangerous to fool with. And one gamer has been doing exactly that, with murderous results. The government knows that to catch a hacker, you need a hacker. And they've been watching Michael. If he accepts their challenge, Michael will need to go off the VirtNet grid, to the back alleys and corners of the system human eyes have never seen--and it's possible that the line between game and reality will be blurred forever.

## Our thoughts:

This book is both intense and action-packed. There is so much you are being told in each chapter, that you **MUST** take your time to process it all. All this and yet it is one of the greatest books I ever read. **AND** there is a book 2&3 to go with it!!

### About the book:

He's half White Witch, half Black Witch.

His mother was a healer, his father is a killer.

He's been kept in a cage since he was fourteen.

But if White Witches are good and Black Witches are evil, what happens if you are both?

### Our thoughts:

This book is AMAZING! As I reached the end of the book, I realised that I wanted more of the characters and their stories. I wanted to know what happened next. That is why I was so happy and thrilled when I discovered that this book is the first book to a trilogy! It's a must-read series, and you will love it if you are into things like vampire diaries or witch-craft

## About the book:

Discover what would have happened if Aladdin had never found the lamp. Their worlds collide when the sultans trusted advisor suddenly rises to power and, with the help of a mysterious lamp, attempts to gain control over love and death. Together, Aladdin and Jasmine must unite to stop power-hungry Jafar tearing the kingdom apart in this story of love, power and one moment that changes everything.

## Our thoughts:

This book is part of a large collection of books written by Liz Braswell. It really puts a *twist* on all the Disney story books that there are. A Whole New World is one of the best books, if not the best book in her collection that she re-wrote with a twist on it.

## About the book:

What happens when a cargo ship sinks in the Pacific Ocean, leaving only one lifeboat of survivors?

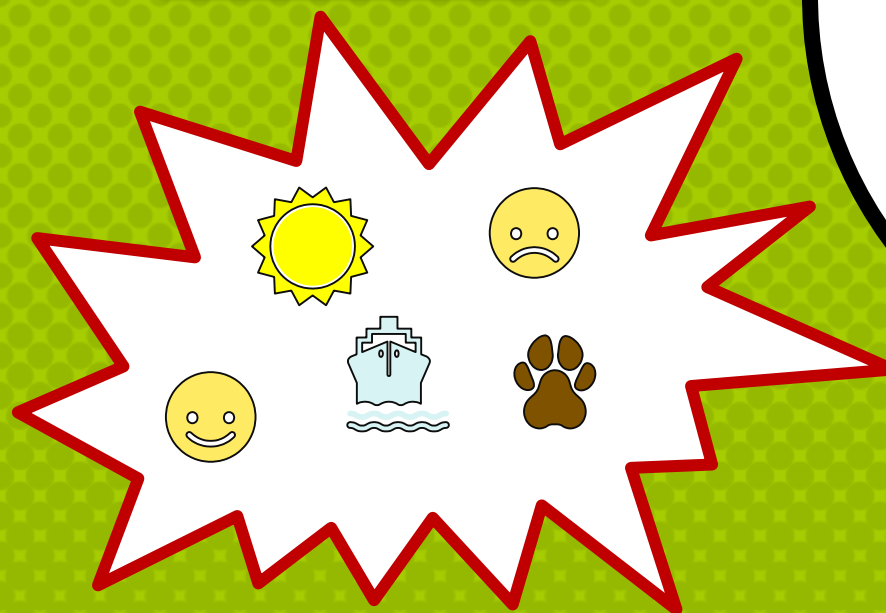

And what happens if those survivors are a hyena, a zebra (with a broken leg), a female orangutan and a Bengal tiger called Richard Parker?

Sixteen-year-old Pi 'Piscine' Patel is about to find out ...

## Our thoughts:

Life Of Pi is a very eye-opening book. It represents the true bond that humans can have with animals. Also, the fact that a Bengal Tiger is used in this story, tells us as the readers that it is possible for humans and animals to live in peace. This is yet another amazing novel.

### Our thoughts:

Divergent is by far my favourite book. It's part of a trilogy that is so intriguing that it is difficult to take your head out of the book. If you are into Dystopian novels then this series is one for you. Even if you do not enjoy dystopian novels, then you should at least read the information on the left-hand side before you decide not to read Divergent.
