English

- You can use Educake and complete some of the quizzes which have been set.
- You could create flashcards for key subject terms e.g. similes and metaphors from some of the quizzes on Educake.
- You should revise the Shakespeare texts you have been working on in class.
- You should revise non-fiction writing including persuasive devices and varying your sentences.

Science

Topics on end of year test:

- Cells
- Particles and their behaviour
- Forces and motion
- Structure and function of body systems
- Elements, atoms and compounds
- Chemical reactions
- Light and Sound

When your child is revising they should:

- 1) Use the knowledge organisers in their exercise books to make revision mind maps, flash cards spider diagrams etc. The knowledge organisers cover the essential content for each topic. If they have not brought their book home, the knowledge organisers have also been uploaded onto teams.
- 2) Use their Kerboodle log in to access the electronic textbook. At the end of each chapter, there is a set of summary questions they can use to test their knowledge. There are also links to videos and animations on the textbook pages which can be accessed by clicking on the icons on the textbook page.
- 3) Test their knowledge using the checkpoint quizzes on Kerboodle. These quizzes are short (approx. 10 minutes each) and start with a quick recap video that students can rewatch as many times as they like throughout the quiz. They are marked automatically and give the students immediate feedback on which areas they can improve on.
- 4) Complete the Kerboodle level up tasks after completing the checkpoint quizzes. These tasks are set based on the questions students have got wrong on their checkpoint quizzes. They again start with a recap video to help students review the content. For students who have got all the questions correct on the checkpoint quiz, a more challenging levelling up task is set.

French

How can I revise effectively for French?

Use the voice recorder on your device to record yourself reading out French words-keep listening to these!

Visit lightbulblanguages.co.uk to find a range of activities and games linked to some of the topics

Download/use the Duo Lingo app on your devices!

Visit BBC Bitesize and search by the topics for any online activities

Use post-it notes or flashcards to write down French words on some and English words on others to then match up – memory/pairs

Geography

Geography Revision

- KS3 Bitesize – has guides on all the topics we have covered this year from weather to population.
- Your teacher will give you a checklist to help you see which topics you need to look at again.
- Websites – internet geography, 3d geography – all have fun revision worksheets
- Bitesize – games to help you revise
- Time for geography – videos to watch!

Join the Planet Planners and use your geography decision-making skills to deal with challenges including volcanic eruptions, earthquakes and coastal erosion.

History

When your child is revising history they should...

- Use their exercise books to make flash cards, mind maps, and spider diagrams.
- Use the video links below to support revision. When students have identified specific topics where there may be gaps in their knowledge, watching the videos linked to that topic should be particularly useful.
